Skills

React	Node.js
Git	Express.js
HTML/CSS	SQL
JavaScript	MongoDB

Experience

KU Full-Stack Flex Coding Boot Camp – 2023-2024

Completed a 24 week course in full stack web development using React, Expressjs, and Node, as well as utilizing design system libraries in conjunction with vanilla CSS.
Worked on both independent and team projects.

Traffic Jam – Created a responsive site using Javascript to fetch data from TicketMaster to show local events.
Campaign Manager – Scaffolded out React application with reusable components to provide a virtual meeting place for tabletop gaming groups. Created dice-rolling component utilizing React state.

Research Medical Center – 2023

Compounding IV bag medications
Helping to maintain / troubleshoot issues with Pyxis
(medication dispensing) machines

SOFIE Biosciences – 2022-2023

Performed calculations to assist in production of medical tracers
Helped troubleshoot issues with systems
Created a basic C++ console program to calculate decay of Cu64 in order to reprogram dosing machine.

Education

KU Full-Stack Flex Coding Boot Camp – 2023-2024

Maple Woods Community College – 2011-2013
